CURRICULUM AND LEARNING AT FOUNDATION PREP

- We believe that children should learn to read, write, obtain information and articulate their thoughts and ideas orally.
- All of our curriculum allows for time to work with others, read, write and present.
- Our curriculum allows our students to see themselves in what they're learning, integrating lots of cultures, family structures and ideas within.
- We have a Social Emotional Learning Curriculum created by the Institute of Women and Ethnic Studies (IWES) that is used school-wide focused around play.
